Tube Distribution Accessories

Features

- Accessory items include couplings and caps rated to 200 psi working pressure, push-fit and quick-connect fittings

Applications

Accessories include a variety of pneumatic parts, which provide maximum flexibility and easy installation of the air-blown fiber system.

Physical Characteristics

Part Number	Description
DE02TOX	Bushing for 2-tube cable liquid-tight Kellem fitting
DE04TOD	Bushing for 4-tube cable liquid-tight Kellem fitting
DE06MP	Plastic plug for 6 mm I.D. x 8 mm O.D. tube. Ten plugs per pack
DE08MA	Tube cap: Plastic push/pull quick release pneumatic cap for 8 mm O.D. tube. 200 psi presure rated. Ten caps per pack.
DE08MB	Bulkhead tube coupling: Brass push/pull quick release pneumatic coupling for 8 mm O.D. tube for panel mounting. 200 psi pressure rated. Ten per pack.
DE08MC2	Clear in-line tube coupling: Plastic push/pull quick release pneumatic cap for 8 mm O.D. tube. 200 psi presure rated. Ten caps per pack.
DE08MT	Black tube T-coupling: Plastic push/pull quick release pneumatic cap for 8 mm O.D. tube. 200 psi presure rated. Ten caps per pack.
DETC008	Tube clip: Plastic tube organizer for up to 8 tubes. Mounting screws provided.
DETCTB	Tube clip organizer mounting bracket.
DE08GBC	**NEW!** Coupling used in Class one, Division 1 and 2 areas, to block gases from leaking into tubes.
DE55MP	Blue plugs for 5.5mm ID TP2 tubes
